Figure 1 consists of 10 scatter plots, labeled (a) through (j), arranged in a vertical column. Each plot shows the relationship between the 'Number of children' (x-axis, ranging from 0 to 10) and the 'Number of children not in household' (y-axis, ranging from 0 to 10). The plots show a general downward trend, indicating that as the number of children increases, the number of children not in the household tends to decrease. The plots are labeled (a) through (j) and include various statistical data points and regression lines.
